## General Comments:

- A concern was expressed about sidewalk maintenance, including parts of Main Street that have uneven sidewalks due to tree root intrusion.
- One resident expressed dissatisfaction with the permit process and the difficulty he had in obtaining permits relative to other jurisdictions with which he was familiar. Staff discussed steps the City is taking to improve the permit process.
- A concern about the project's process and the Planning Commission's qualifications to advise was expressed; staff explained the roles of the Commission, Council, and the professional advisory capacity of staff and the consultant team.
- Traffic concerns. Residents discussed a solution they would like to see implemented in regard to a particular situation involving their northern driveway's exit onto Neilson Way. Ms. Dyke explained their processes and offered to look into the request again, although it had been reviewed and denied previously.

## Follow – Up Issues:

- Transportation Management will follow up on the traffic-related requests.
